

Regional Rehab Positions (SLP, OT, PT)

Due to the restructuring of RCSD funding, the South West Regional Collaborative Service Delivery (SWRCSD) program is being replaced with a new collaborative partnership. The existing RCSD partners are committed to continued collaboration to offer services to children and youth throughout the Southwest region.

As an ideal candidate for the team, you are energetic and enjoy working with students from Kindergarten through to Grade 12. You will work collaboratively to integrate student programming with other disciplines and including students with visual and/or hearing impairments. These positions will appeal to those who are comfortable with change, enjoy a challenge, and seek opportunities for creativity.

As a regional therapist, you will provide clinical professional practice both independently and as a part of a collaborative team. You will be offering services within a full scope of practice including: health promotion, identification, assessment, intervention, and case management. You will participate in planning, coordination and delivery of rehabilitation services in collaboration with students, families, healthcare professionals and other partners. You will use your expertise to inform ongoing quality improvement, service integration, and program development. Applications are invited for the following positions:
